(B) = Beer boat

*** = Priority spinning after the race**

Please remember the golden rules:

- Boat as soon as the last racing crew (typically followed by the following launch) has passed your raft
- Head downstream from your raft, and once below the gut keep to the cox's right-hand bank.
- Be in line, kit changed and ready to go 5 minutes before the division starts
- Tap up to close all gaps *immediately* using *at least* half your crew
- Slower crews must give way by moving away from the racing line.
