## 10. Oxbump Support Proposal

As many of you already know, the members of Wolfson College Boat Club have been doing our best over the past years to provide live bumps updates during Torpids and Summer Eights through use of OxBump, a free app created and previously maintained by two of our former members, Susan Graham and John McManigle. Although various appeals have been made over the years to receive sponsorship for this app, or to sell it to OURCs so that they might run it centrally, it has always fallen back to us as a club to run it without external support. We have done so happily, as we are aware that many Oxford colleges and their boat clubs now use and promote this app to check historic bumps charts, flag statuses, river conditions, and of course live bumps feeds; and we feel it is a worthy service to provide.

With the app creators no longer in Oxford and fewer non-racing supporters available to take charge of the live updates, we have taken it upon ourselves to create 'OxBump Marshal' slots within our club, and have begun to train all of our members in how to use and update the app so that we might continue to provide this service to our fellow clubs. However, this puts a strain on our rowers and coxes because we would have to fill these additional marshal slots on top of our regularly assigned marshal and umpire slots. Four years ago, this meant we had a total of 47 marshalling slots to fill for only 54 people. Understandably this was quite difficult to arrange, and many members were asked to take double shifts on top of their rowing, coxing, and academic commitments.

To alleviate this pressure while still providing live info on bumps races, we asked to reduce our allocation of marshalling and umpiring slots with the equivalent of 1 race desk helper per day, and have been granted this ever since. We would like to request to extend this arrangement for the upcoming edition of Torpids, where we will need around 16 OxBump marshals to keep the coverage live.

While we are fully aware that it is our own choice to continue to ensure OxBump is run and kept as close to 'live' as possible, we are also aware that many if not most of your clubs and corresponding colleges have come to enjoy and rely on this app as well; it would therefore be a shame if we were unable to run OxBump to its full potential this Torpids due to a simple lack of manpower. It is for this reason that I beg your consideration and support today.

*Proposed: Mary Sanford (Wolfson)*

*Seconded: Marcus Tutert (Wolfson)*
