Please remember the golden rules:

- Boat with bows downstream as soon as the last racing crew (indicated by the passage of the following launch) has passed your raft.
- Proceed directly to the Gut on your side of the river, then circulate below the Gut.
- Be in line, kit changed, and ready to go 5 minutes before your division starts.
- **Except in the Gut**, slower boats give way to faster crews. Crews who are being overtaken must make all reasonable efforts to not impede other crews.
- NO SPECTATORS (and a maximum of one coach following each boat).

Please follow all COVID restrictions set by your club/college.

If kit is being shared between crews, please do disinfect this kit before reusing it.

Please remove boats from the rafts promptly after landing, and disinfect boats on trestles, especially at busy rafts.
