(L) = Bright, 360 degree visible lights must be on the boat

(*) = Priority Spinning

Please remember the golden rules:

- Boat as soon as the last racing crew has passed your raft (typically indicated by the following launch)
- Proceed directly downstream on your side of the river, then normal circulation below the gut
- Be in line with kit changed and ready to go 5 minutes before the division starts
- Tap up to close all gaps *immediately* with at least half your crew
- Slower boats have priority; faster boats make their own way around
